College at a Glance

Our vision is not only restricted to serve the privileged class of students, rather we take pride in educating the non-creamy layer of students. We aim to strengthen the weak rather than empowering the strong. We desire to spread Education and knowledge in the remote corner of our district, so that every student can dream of building a better tomorrow. We impart ethical training along with academic knowledge so that we have educated individuals rather than literate ones. Since the inception of the college we have been very rooted to our mission of the founding members, who clearly proclaimed that we must sincerely strive –“To Spread Education and Knowledge in the remote corner of our district to build a better tomorrow.”
